One fine morning in the fall of 1780, seven men went out by the roadside to warch for robbers.

Four of these men concealed themselves in the bushes on the summit of a high hill. Three of their companions sat down

I am fortified in my opinion that this is the

Epileptic Fits. Case 1st .- A child (black) of Enoch Yates, Jr., had Epileptic Fits of so violent a character as to distort all the limbs-the hands and arms were entirely stall and powerless. In this sitnation it was altended by Doctor Burk; of Harrisonville. Sheloy county, who, at the end of three months, gave it up as incurable, and with ten fits when he gave up, for the offe it had when he began to treat it. Indeed, it had fits every half hour, day and night, when I first sent the medicine. One bottle of my Excelsior cured this child, and it never had but one fit after it took the first dose, (it is now 12 months;) the whole of the himbs are perfectly straight, and the child is as well as if it had never been sick. Mr. Yates is a highly respectable gentleman, and lives in Anderson county. His post office is Rough-and Ready, Anderson county, Ky.

Such as the Falling of the Womb, Whites, &c. Mrs. Sim. The names of all the Botters were given in the Yeoman and Commonwealth last summer. This case was of the most paluful and extraordinary character. 1 Indeed, it would seem almost incredible, that in two week after taking my Ne Plus Ultra and Female Restorntive, she was able to go about every where. This case is well known to all the people on Six-Mile, in Henry county. Pleasure-ville is Mr. Buford's post office.

It is nearly two years since I attended, or fathe sent the medicine to this lady. She has lind a child since, and is in perfect health. Her father, Mr. John Riner, a highly respectable gentleman, lives about 4 miles from Frankfort, and will corroborate what I state respecting
